SUMMARY

Full-Stack MERN Developer proficient in building scalable web applications and RESTful APIs using React.js, Node.js, Express.js and MongoDB. Skilled in JWT authentication, database optimization and implementing role-based access control. Strong foundation in Data Structures, Algorithms, OOP and DBMS with hands-on experience in production-ready application development.

EDUCATION

R. C. PATEL INSTITUTE OF TECHNOLOGY
Pursuing Bachelor of Technology – Computer Engineering
CGPA: 8.69/10 - until 6th semester

Shirpur, Maharashtra
Sep 2023 - May 2027

EXPERIENCE

R3 Systems India Pvt. Ltd | Java Developer Training Jun 2025 - Jul 2025

- Developed 2+ production-grade full-stack web applications using Core Java, Advanced Java, JSP, and Servlets, applying SOLID principles and industry-standard coding practices for 10+ users.
- Optimized MySQL database queries using JDBC, reducing query execution time by **25%** and improving API response time from 800ms to 600ms through connection pooling and query optimization.

PROJECTS

EduNexa - Smart Learning Platform | MERN Stack, Nodemailer

[\[Live Link\]](#)

- Engineered full-featured learning management system with JWT token-based authentication, email OTP verification, and multi-level role-based access control (RBAC) for **3+ user** roles.
- Constructed backend APIs and MongoDB schemas for user management, **100+** PDF resource storage, content access, and instructor approval workflows.
- Integrated AI APIs for automated PDF summarization and quiz generation enhanced database queries reducing response time by **40%**.

CollabHub - Student Project Collaboration Platform | MERN Stack, JWT Authentication

[\[Live Link\]](#)

- Built production-ready MERN Stack collaboration platform enabling **100+** students to create projects, discover opportunities, and recruit team members with JWT authentication and multi-role authorization.
- Designed **12+** RESTful endpoints using Express.js with JWT middleware, input sanitization, XSS prevention and RBAC implementation protecting user, project, and application data.
- Implemented refined MongoDB schemas with proper indexing and pagination enabled real-time data filtering and sorting, decreasing query response latency by **35%** for seamless user experience.

Alumni Tracking Portal | Java, JSP, MySQL

[\[GitHub\]](#)

- Architected a centralized Alumni Tracking Portal using Java, JSP, Servlets and MySQL for Alumni, Students and Administrators.
- Created modules for managing **100+** alumni records, event coordination and alumni engagement activities to strengthen institutional networking.
- Executed secure authentication, role-based access control and database optimization for efficient data management.

Developer Portfolio | React.js, Vite, Tailwind CSS

[\[Live Link\]](#)

- Generated responsive portfolio using React.js, Vite, GitHub API, displaying **4+** project repositories with live demos.
- Integrated GitHub repositories, live project demos, resume download and a contact form with smooth animations.

SKILLS

- Programming Languages:** C, Java (Core & Advanced), JavaScript.
- Frontend:** React.js, Next.js, HTML, CSS, Tailwind CSS.
- Backend:** Node.js, Express.js, REST APIs, JSP, JDBC, Servlets.
- Database:** MySQL, MongoDB.
- Platforms and Tools:** Git, GitHub, VS Code, Postman, MongoDB Compass.
- CS Fundamentals:** Data Structures and Algorithms, OOPs, Operating System, DBMS.

ACHIEVEMENTS & CERTIFICATIONS

- Completed **30-hour** Hackathon, SSGMCE Shegaon - developed full-stack application from concept to deployment
- Secured **3rd Place** in MarvelX Technical Competition, Akatsuki Coding Club, RCPIT among 100+ participants.
