SUMMARY

Final-year Computer Engineering student with hands-on experience in Full-Stack Development using the MERN Stack. Skilled in developing scalable web applications, RESTful APIs and database-driven solutions. Proficient in Data Structures and Algorithms, Object-Oriented Programming and database management with experience in building scalable software solutions.

EDUCATION

R. C. PATEL INSTITUTE OF TECHNOLOGY
Pursuing Bachelor of Technology – Computer Engineering
CGPA: 8.74/10 - until 5th semester

Shirpur, Maharashtra
Sep 2023 - May 2027

EXPERIENCE

R3 Systems India Pvt. Ltd | Java Developer Training Jun 2025 - Jul 2025

- Built web applications using Core Java and Advanced Java, applying OOP principles and industry-standard coding practices.
- Streamlined MySQL database operations using JDBC, improving data retrieval efficiency and application responsiveness.
- Developed **2+** full-stack applications using Advanced Java, enhancing performance and maintainability.

PROJECTS

EduNexa - Smart Learning Platform | *MERN Stack, Nodemailer* [\[Live Link\]](#)

- Engineered a MERN Stack-based learning platform with role-based access for Students, Instructors and Administrators using **email OTP authentication**.
- Established a centralized repository for uploading, managing and sharing **100+** PDF learning resources across the platform.
- Leveraged AI-powered summarization and quiz generation for **100+** course materials using external **AI APIs**.
- Deployed backend services and database models supporting **10+** RESTful APIs for user management, content access control and instructor approval workflows.

CollabHub - Student Project Collaboration Platform | *MERN Stack, JWT Authentication* [\[Live Link\]](#)

- Engineered a MERN-based collaboration platform enabling students to create projects, discover opportunities and connect with potential team members.
- Integrated **JWT authentication** and **authorization** with protected routes, ensuring secure access across **10+** backend APIs.
- Designed MongoDB database schemas and developed **RESTful APIs** for user management, project administration, application tracking and team recruitment workflows.
- Established a **workflow management system** allowing project owners to review, approve and manage contributor applications efficiently.

Alumni Tracking Portal | *Java, JSP, MySQL* [\[GitHub\]](#)

- Architected a centralized Alumni Tracking Portal using Java, JSP, Servlets and MySQL for Alumni, Students and Administrators.
- Created modules for managing **100+** alumni records, event coordination and alumni engagement activities to strengthen institutional networking.
- Implemented secure authentication and role-based access control for **100+ users**, enhancing system security and user management.
- Optimized database architecture for managing alumni profiles, event records and student interactions.

SKILLS

- Programming Languages:** C, Core Java, JavaScript.
- Frontend:** React.js, HTML, CSS, Tailwind CSS.
- Backend:** Node.js, Express.js, JSP, Servlets, JDBC.
- Database:** MySQL, MongoDB.
- Platforms and Tools:** Git, GitHub, VS Code, Postman.
- CS Fundamentals:** Data Structures and Algorithms, OOPs.

ACHIEVEMENTS & CERTIFICATIONS

- Participated in a **30-hour Hackathon** conducted at SSGMCE Shegaon.
- Secured **3rd Place** in MarvelX, a technical event organized by Akatsuki Coding Club, RCPIT.
